

CAMPUS SPECIFICATIONS

Vantaa Finland

We bring state-of-the-art data center services to the world's most innovative industries.

Previously operated under the brand Ficolo, our hyperscale and colocation services are 100% powered by sustainable energy sources, so they don't cost the Earth. And it's all powered by extraordinary people who put you first.

Highlights

Located in Helsinki Metropolitan area

15min from international airport

Overall campus size 15 000m²

Overall campus capacity 70MW

Building type: stand-alone data center

Waste heat reuse

62U racks

Tier III equivalent

NVIDIA DGX authorised

HVO fuels back-up generators

70MW
Capacity

Built for
HPC and AI

Power

100% renewable energy (wind)

Two separate 20kV feeds

Diverse power routes

Cell-based design (UPS, Generator), N+1 redundancy

Cooling

Indirect free cooling with rotating heat exchanger

Cooling redundancy N+1

Waste heat reuse for district heating

Fire Protection

High sensitivity smoke detection system (VESDA)

Active Fire Protection (Hypoxic ventilation)

Security

24 x 7 x 365 manned on-site security

24 x 7 x 365 access

Multiple security zones

Access control with biometric control

Mantrap

HDCCTV - with minimum 90 days archiving

Connectivity

Carrier neutral

SDN-based Public Cloud connectivity with DC Interconnect

2 meet-me rooms

Diverse entry points

Quality & Compliance

Central Monitoring System

Information security management system
ISO 27001:2022

Quality management
ISO 9001: 2015

Environmental management system
ISO 14001:2015

Occupational health and safety management system
ISO 45001:2018

Payment Card Industry Data Security Standard PCI-DSS

Katakri - Information security system
for Finnish authorities

Security services

Utilise the best security tools available to safeguard your connections, business, and reputation with utmost confidence.

Scalable services

Whether you need racks or solutions for HPC, wholesale or hyperscale level, we can offer you the best fit.

Sustainable colocation

With 100% renewable energy, our Finland campus includes district heating allowing us to reuse our waste heat.

Connectivity

Through Megaport connectivity, gain unparalleled access to top-tier cloud providers

Standard Services

Colocation (min 1 rack)

Cages

Dedicated Halls

Storage Space

Smart Hands 24/7

Customer Success

Dedicated customer support team

Dedicated project managers

Ensuring quick response times

Proactive service

Cultivating customer confidence
